In reply to NMSF-078762 et al. (WC) 3162.3-2 (21110) which is attached and was received July 23, 2013, WPX would like to request renewal for TA status on this well until 10/28/13. Granting approval to the TA status of the well for the before mentioned date will allow both the BLM and NMOC D TA renewal dates to be concurrent. The well is in the same condition as during the original request for TA status, and WPX would like to save the well for possible future development. The MIT for this well was done 10/28/13.
