PICTURED CLIFF		872 MMCF	55%		0%
MESAVERDE		717 MMCF	45%		100%
		1589			
JUSTIFICATION OF ALLOCATION: ConocoPhillips requests that production for the down hole commingle to be switched to a fixed percentage based allocation. The fixed percentage based allocation is calculated from offset wells. Offset Pictured Cliff wells have zero condensate production therefore the Mesaverde will receive 100% of the condensate production.
