13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

The Tsah Tah 33-3 is currently shut in due to low productivity. Caerus Southern Rockies LLC has had recent success with bringing on wells that were previously shut in. We are still evaluating plans to restore production on the Tsah Tah 33-3 with current economics. Caerus respectfully asks that the shut in status of the well be temporarily continued to allow further evaluation of the potential of the well. Thank you.
