13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Chevron would like to downhole commingle production from the Largo Gallup Gas Pool with existing Blanco Mesaverde and Basin Dakota production in the Rincon 201 well. Currently this well is operating with DHC 1176.

*** MUST HAVE APPROVED DHC FROM SANTA FE PRIOR TO PRODUCTION ***
Commingle of the zones should not reduce the total remaining production value of this well. Chevron plans to use the incremental allocation method to account for the additional production from the Largo Gallup. Any additional production to the current production will be attributed to the Largo Gallup.
** RUN COL AND PRESENT TO AGENCIES PRIOR TO PRODUCTIONS **

We plan to send notification to all offsetting operators surrounding the well. In addition, by copy of this letter, we are notifying the BLM of our intent to downhole commingle production for the Rincon 201.
