13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

5/24/2013. Rig up service unit. Prep well to repair suspected casing leak between 1867 and 1897. Upon further examination discovered that packer was leaking rather than a casing leak. Bridge plug set at 2540. Ran casing inspection log, casing looks good with no apparent holes, pitting or corrosion. Run MIT from 2540 to surface. MIT passed, witnessed by Monica Kuckling OCD. Return well to production as commingled Chacra / PC
