13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

**This well is now a Basin DK/Wildhorse Gallup commingled well. \* DHC 3881 A2**

This well was commingled on 9/6/13; however, the DHC was not submitted prior to the work being completed due to oversight.

The DHC Application is attached to this sundry.

In an effort to reduce this type of oversight in the future, ConocoPhillips has created new subtasks in our internal process.

In addition, ConocoPhillips will be auditing our records from March 1, 2013 to June 30, 2013 to verify that all records are complete.
