See attachments for proposed operation details and wellbore diagrams.

**Note:**

Division Order R-12984-B pre-approves DHC of the Blanco-Mesaverde Gas Pool, the Basin Mancos Gas Pool, and the Basin-Dakota Gas Pool.

Completion of the Basin Mancos interval will not reduce the total remaining production value.

The incremental allocation method for the addition of the Basin Mancos will be used. Supporting data attached (decline curve). The well currently makes 100 MCFPD and just under 1 BOPD. Any additional production will be allocated to the Basin Mancos.
