	<input type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	Reclamation Layout by
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	Adding an Anode Bed

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Encana Oil & Gas (USA) Inc. is requesting authorization to change the facility layout from what was approved on May 15, 2014. Encana is requesting to install a Deep Well Anode Bed on the east side of the teardrop near the pad entrance. Original area chosen for the Anode Bed was steeper than anticipated for the rig to drill the Deep Well Anode Bed. All surface equipment associated with the Anode Bed will be installed near the teardrop for maintenance purposes. The new facility layout is attached.

OIL CONS. DIV DIST. 3
