☒ Location is ready for OCD inspection after P&A

- ☒ All pits have been remediated in compliance with OCD rules and the terms of the Operator's pit permit and closure plan.
- ☒ Rat hole and cellar have been filled and leveled. Cathodic protection holes have been properly abandoned. Note, the cathodic ground bed well remains on location to be used by the active well Nye GC B1 (API No. 30-045-08567).
- ☐ A steel marker at least 4" in diameter and at least 4' above ground level has been set in concrete. It shows the

OPERATOR NAME, LEASE NAME, WELL NUMBER, API NUMBER, QUARTER/QUARTER LOCATION OR UNIT LETTER, SECTION, TOWNSHIP, AND RANGE. ALL INFORMATION HAS BEEN WELDED OR PERMANENTLY STAMPED ON THE MARKER'S SURFACE.

Note, the marker is below ground to accommodate the landowner's planned agricultural use of the site. Survey and plat were received and approved by the OCD.

☒ The location has been leveled as nearly as possible to original ground contour and has been cleared of all junk, trash, flow lines and other production equipment. The BP junk, trash, flow lines, and production equipment have been removed. See attached landowner reclamation acceptance letter of the property in its current condition with the well site and access road unrestored and un-vegetated so the Landowner may have the use thereof. Also the site is co-located with the active well Nye GC B1; any required grading would occur once it was abandoned.

☒ Anchors, dead men, tie downs and risers have been cut off at least two feet below ground level. Note, BP items have been removed. Enterprise's gathering system riser remains on location.

☐ If this is a one-well lease or last remaining well on lease, the battery and pit location(s) have been remediated in compliance with OCD rules and the terms of the Operator's pit permit and closure plan. All flow lines, production equipment and junk have been removed from lease and well location.

☒ All metal bolts and other materials have been removed. Portable bases have been removed. (Poured onsite concrete bases do not have to be removed.)

☒ All other environmental concerns have been addressed as per OCD rules.

☒ Pipelines and flow lines have been abandoned in accordance with 19.15.35.10 NMAC. All fluids have been removed from non-retrieved flow lines and pipelines. Note, BP's on-pad flow lines were removed except within the area used by the existing well Nye GC B1; any remaining buried lines were capped, marked, will be removed during the Nye GC B1 abandonment. The remaining off-location pipeline is the property of Enterprise.

☐ If this is a one-well lease or last remaining well on lease: all electrical service poles and lines have been removed from lease and well location, except for utility's distribution infrastructure.

When all work has been completed, return this form to the appropriate District office to schedule an inspection.

To schedule an inspection please contact Kate Feir @ 970-335-3825.

RE: Landowner -- abandonment acceptance approval
Well Name: Nye GC C#1
Legals: SENE Section 7 T29N R9W

Dear Mr. Velasquez,

The above mentioned well site, on your property, was plugged & abandoned by BP America on 6/14/12. BP and the Landowner acknowledge and agree that BP may leave the property in its current condition with the well site and lease road unrestored and unrevegetated so that the Landowner may have the use thereof in its current state and condition.

BP is required to inform the NMOCD that the location and lease road have been left to the landowner's satisfaction. If the property meets your expectations, would you please sign and return this letter to me?

I (Paul M. Velasquez) *Paul M. Velasquez*, personally have inspected the well site and lease road and find the property in good order and to my satisfaction.

Thank you,

Jerry Van Riper
