13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Encana Oil & Gas (USA) Inc. (Encana) would like to adjust the SHL for the Good Times P36A-2410 01H to be 314 FSL, 850 FEL. Attached is an updated C-102 reflecting this SHL change. Please note, this C-102 reflects the "as-drilled" BHL and POE. The rig was released on 6/14/2014.

The SHL was adjusted due to a misinterpretation of the well pad plat that resulted in drilling the Good Times P36A-2410 01H well from the Good Times P36A-2410 03H wellhead location.

Encana will submit an application and receive approval for a Non-Standard Location prior to producing the well.

Also note, that the project area was modified from 320 acres to 160 acres.
