If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Encana Oil & Gas (USA) Inc. (Encana) would like to adjust the SHL for the Good Times P36A-2410 03H to be 287 FSL, 862 FEL. Attached is an updated C-102 reflecting this SHL change. Please note, the POE and BHL did not change.

The SHL was adjusted due to a misinterpretation of the well pad plat that resulted in drilling the Good Times P36A-2410 01H well from the Good Times P36A-2410 03H wellhead location. Due to this error, Encana moved forward with drilling the Good Times P36A-2410 03H from the 01H location and is requesting this change.
