Reference: Restoration of Federal and State Applications for Permit to Drill (APD)

Dear Mr. Evans:

On March 28, 2014, ConocoPhillips Company ("COPC") discovered that a number of approved APD's had been rescinded through an administrative oversight in December 2013. The wells approved under these APD's are listed on the attachment and they are all considered to be economic projects for COPC at this time.

Therefore, we respectfully request the BLM to restore the APD's for the wells listed on the attachment. These wells are essential to COPC building a robust drilling program in the San Juan Basin.

Thank you for the consideration. Should you have any questions, please do not hesitate to contact me at (505) 326-9802.

Sincerely,

John Bruner
Development Manager
