If a Watercourse was Impacted, Describe Fully.\* NA

RCVD NOV 6 '13  
OIL CONS. DIV.  
DIST. 3

Describe Cause of Problem and Remedial Action Taken.\*

Investigations point to oil getting into the fuel gas line on the separator and catching fire when the oil got to the pilot light. The fuel gas line was shut in and a fire extinguisher was used to put the fire out.

Describe Area Affected and Cleanup Action Taken.\*

Damage from the fire was limited to the flame arrester on the separator.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
