If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. The subject well was P&A'd on 3/3/14. Reclamation cannot be completed as this well is twinned with the Navajo B 6 (API #3004511706) which is a producing well. Reclamation of this location will be completed when the twinned well is reclaimed.

Please remove the subject well from the Burlington Resources Oil & Gas LP bond.
