Describe Cause of Problem and Remedial Action Taken.* On 1/22/2015 at approximately 9:40 AM, MSO doing monthly tank gauging on production tank, discovered the tank empty. MSO notified Area Lead, who then contacted Area Superintendent, Environmental and Safety. Area Lead, Environmental Specialist, and Safety Specialist headed to location for verification. The MSO last gauged the tank 12/22/2014, the tank had 215 bbls of fluid. MSO was last on location on 1/12/2015 to complete an equipment walk around, no release detected. It has been determined that the release amount on this location is 194 bbls of condensate and 21 bbls of produced water. Investigation is ongoing.		
Describe Area Affected and Cleanup Action Taken.* The area below the tank is contaminated. COP will submit a remediation plan to BLM and OCD and excavate to standards. A final C-141 will follow.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
