Ms. Campbell,

Greetings:

I have received your request for oil sales per Rule 19.15.20.11

19.15.20.11 AUTHORIZATION FOR PRODUCTION OF OIL WHILE COMPLETING, RECOMPLETING OR TESTING AN OILWELL:

A. If an operator does not have sufficient lease storage to hold oil produced from a well during its drilling, completing, recompleting or testing, the operator may produce and sell from the well an amount of oil necessary to drill, complete, recomplete or test the well; provided however, that the operator shall file with the division a written application stating the circumstances at the well and setting forth in the application the estimated amount of oil to be produced during the aforementioned operations, and provided further that the division approves the application. Oil produced during drilling, completion or recompletion or testing a well shall be charged against the well's allowable production.

We will issue temporary approval to sell product during the month of April, 2015, **Expiring on April 30, 2015**. No further sales may be made from these wells until the wells are completed and completion packets for the New Wells are filed and approved. Completion packets, including deviation survey and logs, should be filed within 20 days of completion for all wells.

If you have any further questions please feel to contact Amy Vermersch at 505-334-6178 Ext. 113 or myself Charlie Perrin at Ext 111.

Sincerely,

A handwritten signature in cursive script that reads "Charlie T. Perrin".
