NATURE OF RELEASE

Type of Release: Historic condensate/produced water	Volume of Release: Unknown	Volume Recovered: 0 bbls
Source of Release: BGT	Date and Hour of Occurrence: NA	Date and Hour of Discovery: 6/3/2015 10:30 AM
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Brandon Powell and Cory Smith	
By Whom? Peter Diethrich (Tegre Corporation)	Date and Hour: 6/4/2015, 10:00 AM	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

NA

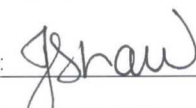

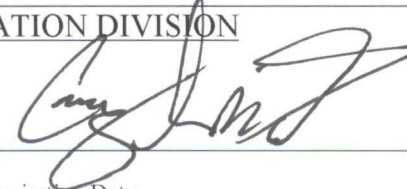

Describe Cause of Problem and Remedial Action Taken.*

Upon excavation of the BGT, soil samples indicated elevated hydrocarbons in the underlying soil. Soil samples were taken to a depth of 36" and lab results came back with TPH (418.1) at 2,000 ppm. The elevated levels are from historic permitted operational practices prior to the installation of a below grade tank.

Describe Area Affected and Cleanup Action Taken.*

The affected area is unknown at this point. The immediate plan is to take perimeter samples to delineate the horizontal extent and excavate down to determine vertical extent. Onsite analysis for TPH levels will be recorded until TPH levels are below 1,000 ppm, or competent bedrock is encountered - as approved by NMOCD.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
