13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Attached is a list of BIYA wells that are being reviewed for gas volumes.

Conditions of Approval: Venting and Flaring Sundry Notice.

- 1) The provided list meets the expectations of this office for step one of mitigating the INC.
- 2) Within 21 Calendar days of the approval of this Sundry Notice, please provide to this office a schedule of wells to be tested for the pressure build up and flowrate testing.
- 3) Along with this list provide the specifics of how each well will be tested and a description of the testing equipment.

Once the BLM receives this information, we can schedule the physical testing of the wells.
