Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Huntington Energy, L.L.C. requests shut in status for the above referenced well. The well was spud on November 9, 2014 & surface casing was set. We are currently evaluating the well's location for future production to see if it is a viable producing location compared to the economic loss of drilling costs. Huntington Energy requests shut in status to allow for more time to evaluate the well.
