following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.) FOUR STAR OIL & GAS COMPANY RESPECTFULLY REQUESTS THE FOLLOWING CHANGE IN THE METERING SYSTEM. Current Gas Metering Setup: Blanco 3A This well is metered at the Enterprise meter, shown below as meter ?A?. Recently the Fruitland Coal was recompleted and is downhole commingled with the Mesaverde. The Mesaverde was producing ~30 mcfd and the FC is expected to produce 100-150 mcfd for a total of 130-180 mcfd via the aid of plunger lift. No compression exists on this well at this time. Optimization of the Fruitland recompletion would require a compressor to be installed. John Q. Marshall #2: This well is compressed then flows through the Enterprise meter (shown as meter ?B? below) to
