Latitude 36.872651° Longitude -108.008261°

NATURE OF RELEASE

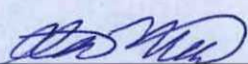

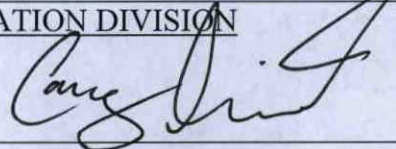

Type of Release: produced water	Volume of Release: 20 bbl	Volume Recovered: none
Source of Release: Stormwater run-on breached the BGT containment berm, filling the BGT, expelling the contents of the tank.	Date and Hour of Occurrence: 8/27/2015; unknown	Date and Hour of Discovery: 8/27/2015 at 1:45 PM
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom?	Date and Hour:	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*  
~350' from nearest water course.

Describe Cause of Problem and Remedial Action Taken.\* During a heavy rain event during the night of August 26 through August 27, 2015, stormwater from an upstream drainage breached the BGT perimeter berm. The high-high alarm notified the field technician of a possible release. The 3' tall berm was destroyed approximately 8' laterally allowing the Stormwater to run into the 95 bbl BGT. The BGT was measured for produced water content just 2 days earlier and measured approximately 20 bbls full.

Describe Area Affected and Cleanup Action Taken.\* After the stormwater subsided, it was found that the BGT was filled with sand and sediment. The sand was removed and transported off site for disposal. The berm will be re-constructed. Samples will be collected for site characterization.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
