13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof.

If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

10/12/15 Contacted Brandon Powell/OCD (Jamie Joe/BLM onsite) re Plug 2 (Kirtland/Ojo). Ran CBL 10/9/15. Perf'd @ 410' couldn't get injection rate; perf'd @ 1206' couldn't get injection rate. Requested permission to spot balanced plug to cover Kirtland/Ojo formation top, then POOH. Rec'd verbal approval to proceed.

The subject well was P&A'd on 10/13/15 per the notification above and the attached report.

Approved as to plugging
of the well bore. Liability
under bond is retained until
surface restoration is completed.
