13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Bridgecreek Resources (CO), LLC submits this revision to the cuttings trench closure plan submitted on 1/1/16.

A mixing pad will not be necessary and we will be able to stabilize the cuttings at a 3:1 ratio within the lined trench prior to burial. Cuttings and clean soil will be layered in a manner similar to layering of a lasagna in the trench prior to stabilization. The location of the trench will allow adequate space for a track hoe to deposit clean soil and cuttings and stabilize from all 4 sides without getting into the rig zone for future well drilling.
