13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

The surface owner requests that a below grade dry hole marker be used to replace the above ground monument traditionally used. Doug Hager, the surface owner, asked the operator to file this request with the NMOCD. Mr. Hager plans to use this area for agricultural purposes. He considers an above ground marker to be an obstruction to activities on his private surface after plugging is complete. His specific request is that a plate be buried 4' below surface. The operator is willing to comply with Mr. Hager's request if allowed by NMOCD. The information on a below grade marker will be the same as required on the above ground marker.

DENIED

OIL CONS. DIV DIST. 3
