13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Subject well was plugged and abandoned on 2/6/2014. This well is co-located with an active BP GCU 168E (API 3004524863). The equipment belonging to the subject well was removed and no reclamation work can be performed due to active well on location. Therefore, BP is requesting a FAN be approved on the subject well and the final reclamation be moved to the active wells at such time that they are plugged and abandoned.
