13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

On April 25th and 26th, the bottom portion of this well was abandoned in accordance with approved NOI - ID 334027. Onsite were John Hegstrom (BLM) and Brandon Powell (NMOCD). Per the CBL there is good cement covering all potential water intervals with bond to depth of ~262'. The CBL was sent to Jack Savage on the 26th via email.

The TOC has prompted a revision in the final abandonment of the subject well as follows:

Rig up a workover rig
Conduct free-point of the 2-7/8" casing
Cut casing at ~200'-250'
Pull casing and lay down
Run cement tubing to ~250'
