By Whom? Bobby Spearman	Date and Hour 8-18-16 08:25a	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

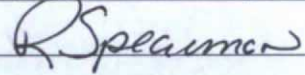

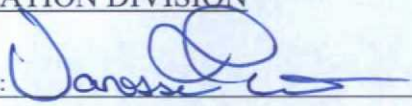

Describe Cause of Problem and Remedial Action Taken.

While attempting to remove a bull plug from the load line the water hauler unscrewed the valve body instead. He placed his suction hose in the remaining valve assembly and pulled the tank then vacuumed up the remaining water in the berm.

Describe Area Affected and Cleanup Action Taken.*

ConocoPhillips will pull samples as soon as possible to asses for cleanup

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
