13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Dugan Production proposes to convert the existing gas sales meter for the Rachel No.2 (El Paso Meter No.89857) to a central delivery gas sales meter for the Rachel No. 2 & 91wells. This will require the Surface Commingling of natural gas from the Basin Fruitland Coal & WAW Fruitland Sand-PC Pools. Only natural gas will be commingled & Measurement will be on lease at the No.2 well. Dugan Production operates both wells & the spacing units for both wells encompass only Federal lease NM-61. The Rachel No.2 is currently shut-in with a cumulative production of 613 mmcf and does not have sufficient pressure to produce into the pipeline which ranges from 50 to 75 PSIA. The Rachel No. 91 was completed 12/12/02 in the Fruitland Coal & will require wellhead compression to produce. It is proposed to deliver gas from the 91 well to the sales meter for the #2 & use one compressor for both wells. This will allow the #2 well to be returned to production & the 91 well to efficiently produce gas from the Fruitland Coal. A copy of Dugan's application to the NMOCD for Surface Commingling is attached to provide additional information about this proposal.

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Dugan production proposes to convert the existing gas sales meter for the Rachel No.2 (El Paso meter No.89857) to a central delivery gas sales meter for the Rachel No.2 & No.91 wells. This will require surface commingling of natural gas from the Basin Fruitland Coal & WAW Fruitland Sand-PC Pools. Only natural gas will be commingled & measurement will be on Lease. Dugan Production Corp. operates both wells & all interest ownership is identical.

(i). Well & Lease information is as follows:

Well Name	API No.	Location	Lease No.	Pool	Spacing Unit
Rachel No.2	30-045-22285	1550'FSL & 990'FEL(Unit I)	NM-61	WAW Fruitland Sand-PC(87190)	160A-SE/4
Rachel No.91	30-045-29835	1620'FSL & 1760'FWL (Unit K)	NM-61	Basin Fruitland Coal (71629)	160A-SW/4-NSP-1866

(ii) Commingled gas volumes (mcf & mmBTU) measured at the CDP sales meter will be allocated to each well using the "subtraction method" described in section 303 B.(3) (a) (iii). A conventional gas allocation meter will be installed at the Rachel No.91 & production for the Rachel No.2 will be computed. Individual well lease fuel plus fuel for the CDP compressor will be determined from equipment specifications & will be included in production determinations.

(iii) Certification of the identical ownership for both wells is presented in attached No.1. The spacing units for both wells encompass only Federal lease NM-61.

(iv) Since all royalty is federal, a copy of this notice is being sent by certified, Return Receipt, mail to the BLM. Copies of the Returned Receipt will be mailed to the NMOCDD upon receiving. A copy of the transmittal Sundry notice to the BLM is presented as attachment No.2.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

AFFIDAVIT

STATE OF NEW MEXICO)
) ss.
COUNTY OF SAN JUAN)

David M. Poage, a Land Manager presently employed by Dugan Production Corp. being first duly sworn on his oath, states that he is familiar with the following described property, to-wit:

Township 26 North, Range 12 West
Section 34: S/2, NE/4
San Juan County, New Mexico
Containing 480.00 acres, more or less
Federal O&G Lease NM-61

and that he is also familiar with the aforementioned lands and lease and has knowledge that said lands and lease are owned by Dugan Production Corp. Affiant states that the said lands and lease are identical in ownership. This ownership in these lands is identical in owners and percentaes for all working interest, royalty and overriding royalty owners. Affiant further states that no change in ownership has occurred and that Dugan Production Corp. has not sold, leased or otherwise made any commitments to affect a change in ownership of the aforementioned lands.

Further affiant saith not.

David M. Poage
David M. Poage, CPL # 1365

ACKNOWLEDGEMENT

STATE OF NEW MEXICO)

Conditions of approval, if any:

Conditions of Approval for Surface Commingling and/or Off-lease Measurement

- 1) Allocation Methodology must be done on an MMBTU basis.
- 2) Measurement of gas must be conducted in accordance with the requirements outlined in Onshore Order No. 3, Site Security and Onshore Order No. 5, Gas Measurement.
- 3) In order to prevent waste and conserve natural gas, periodic review of each well's venting procedures must be conducted in accordance with the requirements outlined in NTL-ADO-93-1.
- 4) No other wells can be added to this system without the prior approval of this office.
- 5) Contact this office in the event of any lost hydrocarbons between the wells and Central Delivery Point (CDP).
