13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Operator proposes to construct access road and produced water and gas transportation pipelines for the subject well to a centralized water collection and disposal system and gas compression and sales system. Detailed drawings of the proposed access road and pipeline are attached. The access road will be 1,985.7-ft. in length and the pipelines will 2,117.4-ft. in length. Both pipelines will be buried in the same trench and the access road will be constructed within the 30-ft. wide pipeline ROW. The portion of access road that is "on-lease" and is on State surface is 1,930.9-ft in length and the portion of pipeline that is "on-lease" and is on State surface is 2,047.3-ft. in length. The remaining portions of access road and pipeline are "off-lease" on Federal surface. Right-of-Way applications have been submitted for those portions of access and pipeline that are on Federal surface. Construction will begin when all necessary permits have been approved.
