**ConocoPhillips will assess the soil to determine a path forward for clean-up if necessary.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Subject:** San Juan 28-5 Unit 102E C-141

Lisa,

OCD received a "Final" C-141 for the San Juan 28-5 Unit 102E the C-141 indicates that it is a "Final" C-141 however the information indicates that COPC intends to go out and further investigate the site. The OCD has approved the initial C-141 with the following conditions of approval.

- COPC will sample the release area for TPH, BTEX, and Chlorides within 60 days September 25, 2017

If you have any questions please give me a call.
