Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Encana Oil & Gas (USA) Inc. (Encana) recently finalized the formation of a 13,128.47 acre Federal exploratory unit named the Blanco Wash Unit. The Blanco Wash Unit hearing occurred on June 25, 2015 at the New Mexico Oil Conservation Division in Santa Fe, in which, Encana requested an undivided unit be formed that would also encompass its own unique oil pool designation. The unit was approved by the BLM on May 31, 2017 with an effective date of August 20, 2012.

The Escrito I24A-2409 02H well, which was approved by the BLM on September 17, 2015, will now be a part of the Blanco Wash Unit. Encana is submitting this sundry to change the well name from the Escrito I24A-2409 02H to the Blanco Wash Unit 403H.

Please note, the surface hole location footages were also modified to reverse the wellhead order to place the 402H closest to the "working side" of the pad.

An updated C-102 is attached.
