13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

The Rosa Unit 648H has been Plugged & Abandon on 3/16/16.

WPX (Mark Lepich) conducted an onsite with BLM (Randy McKee) on 10/3/17 and passed.

WPX request a Final Abandonment (FAN) on the Rosa Unit 648H and transfer reclamation requirements to the other wells (listed below) on location, as they are still active.
