13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

The West Bisti 26-13-20 #1 was recently purchased by Dugan Production Corp. The well had been shut in by the prior operator since December, 2015.

The well has a hole in the tubing and must be pulled to correct the problem. Once a rig becomes available, we will pull the tubing, replace the bad joint and return the well to production.

OIL CONS. DIV DIST. 3

DEC 13 2017

14. I hereby certify that the foregoing is true and correct.

Electronic Submission #397096 verified by the BLM Well Information System
