13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

WPX Energy Production, LLC is requesting to set permanent facilities on the N Escavada Unit 317H and 318H well pad. A site visit was conducted on January 8, 2018 with Randy McKee to discuss facility layout and placement. Facilities on location aside from the wellhead equipment would consist of one gas lift skid. Concurrently, WPX and BLM decided these facilities would be located near the northwestern corner of the well pad on the east side of the access road. Please see the attached well pad diagram.
