13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

MIRU Roadrunner Well Service, LLC (Roadrunner) to commence well workover operations. Plans are to set a CIBP @ 6750' approximately 50' above the current Upper Mancos formation perforations, then dump 25' of cement on top of CIBP. Then Mesa Verda zone intervals 5656'-62', 5665'-5685' and 5734'-5742' will be perforated, and acidized and fracture treated. Well workover operations are expected to commence in April, 2006.
