	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

This sundry notice is being submitted by Enduring Resources as a follow-up to their vegetation monitoring of the subject well, in accordance with the BLM-FFO Bare Soil Reclamation Procedures for an on-lease well pad. This well's well pad has met the vegetation standards outlined by its designated vegetation community and is recommended to be moved into a five-year monitoring schedule. The vegetation monitoring for this well took place on 6/27/17. The well pad sits within Pinyon Juniper habitat and requires a vegetation cover of 20% or greater. After monitoring this pad, the results show that this pad had 28% cover on transect one (1) and 25% cover on transect two (2) with an average of 26.5%.
