13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof.

If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Hilcorp Energy Company has received NOI approval to isolate the Dakota below a CIBP and perforate the Menefee and flow for testing for 6 months. Hilcorp is requesting an 6 months to continue testing before we return to the well to complete the rest of the MV recompleate and drill out the CIBP isolating the Dakota. The CIBP to isolate the Dakota is set within 50' of the top perforation of the Dakota.
