13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

This Notice of Intent is to inform the BLM of Juniper Resources Exploration Company, LLC's plan to expand on a temporary basis the storage capacity of the Tsah Tah SWD #11's produced water facilities. Attached to this sundry is the original location plat for the referenced location along with a satellite diagram of the expanded tank layout.

The expanded facility will contain fifty (50) additional upright fully enclosed tanks with capacity of 400 bls a piece. Tanks will be manifolded and connected to the existing water can on location. Total storage capacity will be ~20,000 bls.

The source water for the temporary facility will generated from Juniper's Tsah Tah Fruitland Coal Produced Water system. The water will be transported to the tanks via the existing Tsah Tah water lines. Once sufficient volume is aggregated Juniper will transfer via truck to its Pinon Unit 306H
