13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

DJR Operating, LLC request permission to set a tank at this well site and use that tank as a point of measurement for oil sales. Previously, this wells oil production was sent to the Central Bisti Unit Tank battery via pipeline. DJR does not, at this time, feel the pipelines integrity can handle this production. The tank will be strapped, sealed, and all other site security protocols will be followed.
