Matthias Sayer
Deputy Cabinet Secretary

Heather Riley, Division Director
Oil Conservation Division

New Mexico Oil Conservation Division approval and conditions listed below are made in accordance with OCD Rule 19.15.7.11 and are in addition to the actions approved by BLM on the following 3160-4 or 3160-5 form.

Operator Signature Date: 10-15-18
Well information:

30-039-06552 CANDADO #002

DJR OPERATING, LLC

Application Type:

- ☐ P&A ☐ Drilling/Casing Change ☐ Location Change
- o ☐ Recomplete/DHC (For hydraulic fracturing operations review EPA Underground injection control Guidance #84; Submit Gas Capture Plan form prior to spudding or initiating recompletion operations)
- ☒ Other: SHL correction

DJR has 30 days to file the appropriate administrative request for NSL to Santa Fe and notice the Aztec office that the request has been filed.

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has detennined that the site is ready for final inspection.)

DJR Operating, LLC requests approval of this sundry for the following reason:

On a recent inspection of the Candado #2 well location by Mr. Jonathan Kelly of the Aztec office of the New Mexico Oil Conservation Division, it was discovered that the Candado #2 coordinates were off by 495 feet. Mr. Kelly requested a new survey and revised C-102. The new and revised C-102 showing the accurate location for the Candado #2 as 583 FSL/1262 FEL-P- Section 9-T26N, R7W, Rio Arriba County, New Mexico is attached.

The email from Mr. Kelly is attached for reference.

Subject: Footages on Candado #2 (30-039-06552)

Good afternoon,

While inspecting recently I found that the coordinates we have listed for the Candado #2 that are based off of the footages are about 495 ft off. The current footages and coordinates places the well on the same location as the Candado #23A, but the well is located across the main road to the SW of the #23A. I performed a well file review and found no documentation that matches what was found during the inspection.

Please perform a well file review and resurvey the #2's location and submit on the appropriate Sundry and C-103. Please make sure to make appropriate changes to the well's signage.

If you have any questions regarding the above, please do not hesitate to contact me.

Thank you,

Jonathan D. Kelly
