The production will be commingled per Oil Conservation Division Order Number 11363. Allocation and methodology will be provided after the well is completed. Commingling will not reduce the value of the production. The Bureau of Land Management has been notified in writing of this application.

Proposed perforations are: PC: 2305' - 2375'; DK: 6656' - 6858'. These perforations are in TVD.

Notification of the intent to commingle the subject well was sent to all interest owners via certified mail on 1/23/2019. No objections were received.
