13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has detennined that the site is ready for final inspection.)

Retainer set in hole at 4683'. Well will be testing to 500 PSI or grearer for a duration of 30 minutes & will not have a pressure drop of not greater than 10% over a 30 minute period. The pressures will be recorded on a chart recorder with a maximum two hour clock & maximum 1000 lb spring that has been calibrated within 6 months prior to the test. A subsequent report will be filed when the test is complete.
