13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

The LV Hamner B1 well was acquired from DJ Simmons and scheduled for P&A. Since Mustang Resources, LLC purchased this well we would like to flow test the well under commingle approval being submitted currently to determine if the well is economical prior to P&A. This well currently has no tubing in hole. Mustang is requesting approval to produce the well without tubing in the hole for 60 days while determining economic viability of the well.
