13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Navajo Nation Oil & Gas Company is requesting a variance in regards to the BOPE that is normally required due to the condition of the wellhead(severely Corroded and no casing head was ever previously set) The well is only 628 feet deep and due to the extremely low BH pressure and depleted nature of the well, there is no anticipated threat or concern of the well flowing.
