13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Hilcorp Energy Company requests permission to leave the isolation plug in the hole at 5740' and shut in the well. HEC obtained BLM/OCD approval in August 2019 for an extension of the PC only test for an additional 180 days. In June 2019 a CIBP was placed @5740' to isolate the existing GL/DK zones for the PC test after the Recomplete. Due to the current economic environment, HEC has submitted the well for ACOI shut in status with NMOCD.
