In conjunction with the approved DHC Order # 2363, Chevron Midcontinent, L.P. has submitted the following Downhole Commingle Allocation Percentages for this well to the NMOCD on this same date. The Basin-Dakota percentages are based on anticipated production volumes representative in the area of this well while the Mesaverde allocations are based on historical production by this well in the Mesaverde. These Allocation Percentages are also consistent with other approved DHC Allocation Percentages of commingled wells in the Rincon Unit adjusted to current rates and declines.
