	<input type="checkbox"/> Casing Repair	<input type="checkbox"/> Water Shut off
	<input type="checkbox"/> Altering Casing	<input type="checkbox"/> Conversion to Injection

**13. Describe Proposed or Completed Operations**

Burlington Resources is requesting the following changes to the well design:

The Intermediate casing was approved for 2420' and we would like to change it to 4057' due to the Cliffhouse formation, which is wet in this area in order to air drill the Dakota. The intermediate casing will go 150' into the Menefee. Cement and centralizer program have been planned in accordance with heritage COP practices. Will use Schlumberger cement recipes instead of BJ's.

- 7" casing program should be adequate.  
- Adjust Cement volumes accordingly.

14. I hereby certify that the foregoing is true and correct.
