13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.

This well was T&A'd Aug. 1, 2002. Please reference demand letter dated July 14, 2003. Also please reference a conversation between BP engineer John Papageorge & Steve Mason on Aug. 4, 03 at which time it was determined said well will remain in T&A status until which time GulfTerra sets a compressor on their 6K lateral line. Currently there are surface restrictions (mobile home) that prevent BP from setting wellhead compression. This surface restriction has also prevented us from recompleting the well.

THIS APPROVAL EXPIRES SEP 01 2004

For technical questions please call John Papageorge at 281-366-5721

14. I hereby certify that the foregoing is true and correct
