CASING/CEMENT JOB [ ] RCUD MAR2'07 [ ]

OTHER: OIL CONS. DIV. DIST. 3 [ ]

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

In order to avoid construction of another Workover Pit to do well work on our Charley Pah # 4 well, located @ 1750' FSL & 1400' FEL, NWSE, Sec. 12, T-27-N, R-09-W, we were allowed to utilize this already permitted, constructed and open Workover Pit on the Blanco # 2-A well. This was also done to avoid the possible environmental impact of constructing a Workover Pit on the Charley Pah #4 location, which was in close proximity to a wash.

Although the well work to repair a bradenhead leak on this well has been recently completed, Four Star Oil & Gas Company, respectfully requests for an extension on the closure of this well's Workover Pit until such time as we can evaluate, resume and complete work necessary to bring our Charley Pah #4 well back into full regulatory compliance. Due to recent weather delays and current rig re-scheduling, as well as the extent of work required on the Charley Pah #4, we don't anticipate completing all of its work until approximately the end of June, 2007.

Four Star O&G has filed, concurrently, a Sundry NOI of this Request for Extension of Closure for Workover Pit to the BLM Farmington Field Office (see attached).

Upon completion of the well work, this Workover Pit will be closed as per our guidelines, also on file at NMOCD in Aztec, NM.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines [ ], a general permit [ ] or an (attached) alternative OCD-approved plan [ ].

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)
