RE: NMSF-078621 (WC)
3162.3-2 (21110)

Maralex Resources, Inc., intends to turn the Brookhaven A # 2 to production by 3/31/07. The well will need to be tied into a gas sales line, however, in the mean time, a pump jack will be set and the produced water will be sent to a water tank on location. Maralex still intends to re-stimulate the Fruitland Coal formation. The well will be perforated, acidized and fracture stimulated in the future pending pipeline ROW and obtaining agreements from other interest owners.
